Frontend UI Experience Bible

Version 1.0

Platform: React Native (Expo)

Purpose: Frontend UI Design Documentation Only

Table of Contents

PART 1 — Product UI Vision

1. Product Introduction
2. UI Vision
3. UI Goals
4. User Experience Goals
5. Design Philosophy
6. Brand Personality
7. Visual Identity
8. User Emotions
9. Mobile First Principles

PART 2 — Visual Direction

- 10. UI Mood**
- 11. Design Language**
- 12. Inspiration References**
- 13. Design Keywords**
- 14. Things To Avoid**
- 15. Glassmorphism Rules**
- 16. Gradient Rules**
- 17. Lighting Rules**
- 18. Illustration Style**
- 19. AI Character Style**
- 20. Workspace Theme**

PART 3 — Design System

- 21. Color Palette**
- 22. Typography**
- 23. Font Sizes**
- 24. Font Weights**
- 25. Icon Library**
- 26. Border Radius**
- 27. Elevation**
- 28. Shadows**

29. Opacity

30. Blur Effects

31. Gradients

32. Design Tokens

PART 4 — Layout System

33. Screen Grid

34. Safe Area

35. Screen Padding

36. Section Spacing

37. Card Spacing

38. Component Alignment

39. Scroll Behaviour

40. Portrait Rules

41. Foldable Rules

PART 5 — Component Library

Every component must contain:

- Purpose
- UI Rules
- Variants
- Sizes
- States
- Spacing
- Animation
- Accessibility

Components

Buttons

Text Inputs

Search Bars

Cards

Career Cards

Company Cards

Mission Cards

Landscape Restrictions

PART 14 — Claude Code UI Generation Rules

Claude must

Always follow CareerVerse Design System

Never invent new colors

Never change typography

Never change spacing

Never use desktop layouts

Always think mobile first

Always reuse components

Always follow React Native best practices

Always maintain CareerVerse branding

Always maintain premium appearance

Never create inconsistent UI

Every new screen must look like it belongs to CareerVerse

PART 15 — UI Quality Checklist

Before finalizing every screen

- ✓ Mobile Friendly
- ✓ Safe Area
- ✓ Responsive
- ✓ Premium Design
- ✓ Accessibility
- ✓ Consistent Colors
- ✓ Consistent Typography
- ✓ Consistent Components
- ✓ Smooth Animation
- ✓ React Native Compatible
- ✓ NativeWind Compatible
- ✓ Touch Friendly
- ✓ Production Ready

PART 16 — Future UI Expansion Rules

If new screens are added:

- Never create a new design language.
- Extend the existing component library.
- Follow the same spacing system.
- Follow the same animation system.
- Reuse typography and color tokens.
- Maintain visual consistency across all modules.
